### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. D. Williams on November 28, 2005. The amendments were made to clarify the apparatus recited in the claims.

In the specification, before the first line the following has been added (while deleting the specification amendment of February 18, 2004):

--This is a divisional of Application No. 10/006, 121, filed December 10, 2001, now US patent 6,718,737; the disclosure of which is incorporated herein by reference.--.

In claim 7, lines 6-9 have been replaced with the following:

-- a sorting station for selectively sorting said encased products to a first feed path and a second feed path;

means for forming the arrayed encased products in the first feed path in a first attitude and the encased products in the second feed path in a second attitude different from said first attitude; and--.

The prior art does not show in combination a packaging apparatus that comprises an arraying station for supplying encased products, a sorting station for sorting the encased products into two paths, means for forming the encased products into a group with the encased products

Art Unit: 3721

being abreast of each other in the first path and for forming the encased products into a group with the encased products being in tandem of each other in the second path and a packaging station for packaging either of the encased products in the first and second paths.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
